## Series Box

SPOTLIGHTS

The Box R series has simple forms which will not dominate the interior. The ring provides a full range of motion and the facility to use different light sources, which adds character and makes the fitting interesting. When purchasing the luminaire, it is essential to choose the version suitable for halogens. The version with integrated LED allows the selecting of the light colour and the dynamic changing of the illumination angle. The Super LED (SLED) version provides the highest light quality, comparable to the sun's spectrum.

---

Basic, complementary and spot lighting. Suitable for commercial space such as clubs, galleries, hotels and also for office and home lighting.
