## Series Mbox

SPOTLIGHTS

The MBox is a series of luminaires with a delicate minimalist form, without visible mounting screws, intended for subtle fitting into the ceiling. Available as an option for a GU10 light source or with an integrated LED module. The version with integrated LED allows the selecting of the light colour and the dynamic changing of the illumination angle. The Super LED (SLED) version provides the highest light quality, comparable to the sun's spectrum.

Wherever a source of focused light is needed. It will work perfectly at establishments such as clubs, galleries, hotels, but also as lighting for the office and home.
