230 V 50 Hz

## Series Reel

FREESTANDING

The freestanding version of a luminaire from the Reel line was designed by Fabian Baumann from the Formfjord design studio. Its remarkable design, the soft curve and interesting lightshade give it a unique, attention-grabbing look. The high quality integrated LED light source, considerable flexibility in directing light, and the glass lens making it possible to adjust the lighting angle make the luminaire highly versatile.

Basic, complementary, and spot lighting. It will work perfectly at establishments such as clubs, galleries, and hotels, but also as lighting for the office and home.
